Subject: NPSTC NOMENCLATURE PROPOSAL - CALIFORNIA FIRE SERVICE

Laura, Marilyn, John -

Attached is the joint proposal from the FIRESCOPE & California Fire Chiefs Association in preparation for the February 5th meeting in Orlando. The Boards of Directors of both organizations have reviewed this document and have approved it for submission.

There will be approximately 5 attendees at that meeting to represent the position of the California Fire Service that the existing nomenclature is flawed and not user friendly for the end user.

We believe that we have a recommendation for consideration far superior to that which was adopted by the NCC.

We look forward to explaining our proposal in detail.

Regards -

Brent Finster
FIRESCOPE Communications Specialist Group Secretary
