

# NPSTC 700 MHz 2<sup>nd</sup> FNPRM Response

## Governing Board Reviewing Draft

- Reaffirms NPSTC support for Public/Private Partnership, Nationwide Interoperable BB Network and PSST;
- Addresses need for public safety grade design, not another commercial network;
- Suggests using auction \$\$ to help fund network, phasing in some PS grade features, and clarifying defined vs. negotiable elements to help enable viable business plan;
- Requests additional flexibility for regional participation coordinated with and authorized by PSST;
- Recommends additional funding and schedule extension for narrowband relocations; and
- Provides detailed technical responses based on the NPSTC Broadband SoR.
